Shopping for premium product is always the best choice. The Audi Navigation provides you with the best and newest products that are selected after the huge performance and quality checks. For every product you'll find a standard usage period, as well as the mileage you'll get for free with this product. The performance and quality of each product is ensured in Germany, and in each European country you'll find your country's version of this product. The standard product expires after 3 years. If you're looking for a navigation system with new offers, try this one: (LEISSE 5,43) Kannen - ACHTUNG! Bitte beachten Sie das PDF, es wird in jedem Browser angezeigt! Screenshots Features Discover the perfect location using Google Maps Automatically find your destination Track your destination by mapping nearby restaurants, coffee shops and gas stations Compatible with both Android and iOS SD Card not included Description Discover the perfect location using Google Maps Automatically find your destination Track your destination by mapping nearby restaurants, coffee shops and gas stations Compatible with both Android and iOS Product Description The latest generation of Audi Navigation is the perfect choice for the perfect and practical mobile navigation for your car. It offers a wide range of functions to turn your car into your own mobile office. The current version is also available for the iPhone, iPod touch and iPad. The high-quality map and the full navigation features work seamlessly with the screen of these devices. Google Maps - the world's most successful navigation software Google Maps is the world's most successful navigation software, offering you free worldwide, free traffic reports, maps for more than 200 countries and millions of addresses in over 200 countries. More than 60 million users per month use Google Maps to explore the world around them. My way - directly map to your destination My way is a navigation program for the car which lets you guide to your destination by yourself. The program allows you to map your destination. If you're on the road, it takes you to the most suitable and efficient route. As you approach your destination, it will notify you about your route and the traffic situation. The destination you are interested in will be marked as a special symbol in the direction display. With a single touch 4bc0debe42
